

BROOKLYN'S CITY HALL.

A NEW CUPOLA AND OTHER ARCHITECTURAL ADORNMENTS TO BE ADDED.

HOW THE WORK IS PROCEEDING—A FIREPROOF STRUCTURE DESIGNED—REMODELING OF THE ROTUNDA CONTEMPLATED—NEW ELEVATOR AND STAIRCASES.

About a year ago the cupola of the Brooklyn City Hall was burned and an appropriation was then obtained for its reconstruction and for other work that was regarded as necessary. A competition was held, in which Mr. Hunt, Professor Hamlin and Mr. Morse acted as expert advisers. Their unanimous selection was the design of a cupola, somewhat similar in character to the old one, prepared by Vincent C. Griffith and C. W. and A. A. Stoughton, of No. 36 Fifth-ave., New-York. They selected that as the most suitable both in association with the old work and typical of a city hall, especially considering that the building is low and flat, requiring an elevated crowning feature, and that the court-house behind it has a dome, with which a dome on the City Hall would undoubtedly compete in its architectural character.

DELAYED BY CHANGES.

The work was considerably delayed in its beginning in the summer, as many changes in the plans were made, owing to the removal of the old courtroom and other things which were gradually taken out as the appropriation of room was made among the various departments. It was further found that much more work than was anticipated when the appropriation was made would be necessary, and, despite the efforts to keep the work on the smallest practical amount commensurate with the requirements and appearance of even a first-class office building, the resulting estimates on the plans and specifications proved to be considerably in excess of the available appropriation. As a consequence,

ACCEPTED DESIGN FOR NEW CITY HALL CUPOLA.

another delay occurred, extending through nearly two months, in which every effort was made to adjust the various estimates so as to carry out the most essential parts of the work—efforts which were hampered by opposition to any plan of improvement which did not include a cupola.

IRON AND COPPER IDEA REJECTED.

Various suggestions were made as to erecting a cheap cupola in iron and copper, which were, however, finally rejected on the representation of the architects that such a construction would be both unsuitable and unbecoming in this building, which, before everything, bears the character of simplicity and even severity, qualities not properly expressed by copper work.

Contracts were, however, finally awarded about the first of the year for the amount at the disposal of the commissioners, which included the fireproofing of the interior of the building, a new roof, new staircases, elevator and the remodeling of some of the offices. Work has begun immediately, and is now proceeding rapidly.

A move has been made to obtain another appropriation, which will enable the city to proceed with at least a part of the remainder of the work. This work includes in the interior the remodeling of the rotunda and the principal staircase, with new marble floors and suitable decorations for the principal entrance, ventilating, heating and lighting plants, and the steel work necessary to carry the cupola and for the exterior a marble balustrade and the cupola with clock and bell, shown in the illustration, which is taken from the architects' drawings.

A HANDSOME BUILDING.

The completion of this work will give to Brooklyn a handsome fireproof municipal building which, from its central position, approached on all sides by thoroughfares, will make it more than ever a landmark from which the citizens may take their bearings as they certainly will take their time.

The extensive repairs will make it practically a new building from the second story up when the contractor, John J. Cashman, will have completed his work. Although workmen swarm in and out of the building, filling it daily with dust and debris, the inconvenience is viewed with complacency in anticipation of the advantages which will be derived from the new building. If the work goes on without interruption, it will be completed next October. But it is almost certain that on account of an insufficiency of appropriation, the work will necessarily be extended over the greater part of a year, so that alterations will not be entirely finished much before next May. The contract price for the work was \$750,000 for the general work and \$100,000 for the iron work exclusively.

DISPOSAL OF DEPARTMENTS.

On the second story the Law Department will occupy the space formerly allotted for Judge New's courtroom, on Fulton-st., and taking in part of what is now the rotunda. It will be connected by a spiral staircase with the third story, where a room of equal space will be fitted up. The staircase will extend to a gallery over which will be a large skylight, thus giving an excellent light throughout.

The present committee-rooms of the council chamber on the second floor will be entirely changed. The improvement contemplates three rooms of larger proportions. They will be separated by fireproof walls.

The third story has heretofore been practically waste room, the only occupant being the janitor. Workmen are at present engaged in laying an iron girder and fireproof floor. The entire second story, when completed, will be entirely new and devoted to the Building Department. As soon as the flooring is laid, the roof will be replaced by a new one with about twenty ventilators. Mr. Cashman said yesterday that he could be ready for this work about May, but this will depend largely on the speed with which the present ceiling in the Council Chamber and the floor in the rotunda will be removed and replaced by a new one. This work will take at least a month, and in the mean time the Aldermen will be forced either to adjourn or find quarters elsewhere.

The decorations of the remodeled apartments will be thoroughly artistic and as creditable to the Council Chamber will be restored and the entire room refurnished. The committee-rooms will be laid out in oak and the doorways will be finished with the new woodwork. The new woodwork will be added, special attention being paid to the sanitary arrangements and artistic finish. The Building Department's rooms will be equally well finished. On the ground floor the rotunda will be fireproof, and new cornices will be added throughout.

A NEW CYCLIST WEEKLY.

"The Long Island Cyclist" is a new journal published in Brooklyn every Saturday and devoted to the interests of Brooklyn and Long Island. It was first issued on March 7. Yesterday's number contained eight pages of well-prepared and well-printed reading matter, interesting to bicyclists, including plenty of that sort of local news which ought to make the journal acceptable to Brooklyn bicyclists. It is asserted that "The Long Island Cyclist" is the only paper in Long Island devoted exclusively to cycling news. It makes a feature of bicycling club news and gossip, says good words for good riders, and believes that every rider should join the L. I. W. or Good Roads Association, or some club.

Luncheon's VIO-VIOLET Perfume or Sacket. A very pretty remembrance for Easter.

SELECTIONS FROM THE MAIL.

MEMBERSHIP IN THE CINCINNATI. ANSWERS TO QUESTIONS OF A CORRESPONDENT REGARDING ITS CONDITIONS.

To the Editor of The Tribune.

Sir: I beg to ask for an item of information, which (as we look to your newspaper as the first and best authority in all Revolutionary matters) perhaps you alone can supply, viz:

It has been generally understood that membership in the Society of the Cincinnati was limited to the lineal male descendant, in each generation, of a field officer (that is, an officer beyond the commission of captain) who served three years or more in the field, within the era of the Revolutionary War, 1775-1782. I desire to ask your courteous information as to whether this inflexible (as I understand) rule has been abrogated in later years.

The moving inducement pressing me to address this, perhaps intrusive, letter to you is the fact that the secretary-general of the Cincinnati is, according to the records, one Asa Bird Gardiner. The Society of the Cincinnati prints no lists or year book. But in the year book of the Sons of the Revolu-

ACCEPTED DESIGN FOR NEW CITY HALL CUPOLA.

tion in the State of New-York, 1886, this same Asa Bird Gardiner gives his credentials. Therein he claims the following, viz: 1. Rouben Willard, 2. Othello C. Johnson, 3. John Van Hook, 4. John Van Hook, 5. John Van Hook, 6. John Van Hook, 7. John Van Hook, 8. John Van Hook, 9. John Van Hook, 10. John Van Hook, 11. John Van Hook, 12. John Van Hook, 13. John Van Hook, 14. John Van Hook, 15. John Van Hook, 16. John Van Hook, 17. John Van Hook, 18. John Van Hook, 19. John Van Hook, 20. John Van Hook, 21. John Van Hook, 22. John Van Hook, 23. John Van Hook, 24. John Van Hook, 25. John Van Hook, 26. John Van Hook, 27. John Van Hook, 28. John Van Hook, 29. John Van Hook, 30. John Van Hook, 31. John Van Hook, 32. John Van Hook, 33. John Van Hook, 34. John Van Hook, 35. John Van Hook, 36. John Van Hook, 37. John Van Hook, 38. John Van Hook, 39. John Van Hook, 40. John Van Hook, 41. John Van Hook, 42. John Van Hook, 43. John Van Hook, 44.
